DESKING

## KOMO

With a variety of desk sizes, Komo is a highly flexible system which allows for a multitude of workstation configurations. Cable managed legs, optional cable baskets and CPU holders provide discreet cable management.

Metal to metal fixings allow for simple re-configuration, whilst elegantly curved tops complete with pearl nickel aluminium portals, add that all important finishing touch.

**KOMO CRESCENT DESK**

Pictured here is a 2 person configuration using 1600 x 1200mm desk with pedestal.

A complete range of matching pedestals, filing & storage units are available. See page 35.

## FEATURES

- 25mm Tops.
- Formed steel legs with integrated internal cable management. Powder coated in high resistant silver RAL9006 paint.
- All paint used is completely solvent-free and offers up to 99% material utilisation. Consequently, this coating method is incredibly economical and, at the same time, eco-efficient.
- Legs and tops are joined with metal to metal fixings which add extra strength and allow for simple reconfiguration.
- 2 Aluminium Desk Top Cable Portals per Desk.
- Adjustable feet on all items.
- Impact protective edging.
- E1 grade panel with Environmental certification.

DESKING

# SWITCH

Switch is a highly flexible desking range with the ability to make complex single structure configurations of any length.

Switch has been laboratory test certified by Satra and has passed the following tests:

BS EN 527-1:2011 – Ergonomics

BS EN 527-2:2002 – Mechanical Safety

BS EN 527-3:2003 – Strength and Stability.

Oh, and it comes with a 20 year guarantee.

## FEATURES

- Configure workstations of any length.
- All metal fixings.
- Cable management friendly.
- Modern design.
- Laboratory tested:  
BS EN 527-1:2011,  
BS EN 527-2:2002,  
BS EN 527-3:2003

# CONFIGURE WORKSTATIONS OF **ANY LENGTH**

A complete range of matching pedestals, filing & storage units are available. See page 35.

## DESKING

# LEAP

Leap is an electrically adjustable range of desking comprising of a single stand alone desk & bench desk. Our frames can be manually expanded to accommodate tops from 1200mm to 1800mm in width and electronically adjusted from 595mm to 1245mm in height, all at the touch of a button with the touch sensitive controls.

Each user can adjust their own desk height individually via the memory master control unit.

Leap also features anti-collision software meaning if it encounters an obstruction as it is going up or down it will stop and retract 2cm. Leap is test certified to EN527-1 and EN527-2.

Touch control memory controls lets the user set 3 predefined heights, which can be recalled with the touch of a button

## FEATURES

- Height min. 595/max.1245mm, Stroke 650mm.
- Speed 40mm/s.
- Width adjustable 1080 - 1800 mm.
- Lifting Power - Distributed Load of 125Kg.
- Increase productivity and avoid the 3 o'clock slump by regularly standing up and sitting down.
- Increase wellness of employees.
- Reduce the number of sick days.
- Increase productive output.
- Decrease costs of labour insurance.

The background is a solid red color with several large, semi-transparent, overlapping shapes in a lighter shade of red. These shapes include a large circle at the top right, a large circle at the bottom center, and a large, irregular shape on the left side that resembles a stylized letter 'M' or a similar abstract form.

**WHY WE  
SHOULD ALL  
USE A HEIGHT  
ADJUSTABLE  
TABLE**

### MUSCLE PROBLEMS

If you stay seated all day, your leg muscles and gluteus muscles will become inactive, thus reducing your ability to sit up straight.

### POOR CIRCULATION

Remaining seated for too long may result in swollen ankles and varicose veins, caused by fluids sinking down into the legs.

### BRAIN ACTIVITY

If you stay fixed in one position, insufficient fresh, oxygen-rich blood will be pumped around the body, causing brain function to slow down.

### HEART RISKS

Since muscles are less active while a person is seated, they burn less fat. Together with a higher blood pressure and elevated cholesterol levels, this increases the risk of heart disease.

### BACK PROBLEMS

Staying seated for long periods causes weight pressure to be unevenly distributed over the spine, leading to spinal problems in the lower back.

STORAGE & ACCESSORIES

# KITO X-SERIES

Manufactured from the highest quality steel, using the latest robotic technology, our X-Series has been carefully engineered to meet modern requirements of space and ergonomics.

## FEATURES

- Fifth wheel on filing drawer for additional stability.
- Master-key series, central locking.
- Optional landscape & portrait drawer dividers.
- Optional pen tray.
- Adjustable filing bar for FC or A4 files.
- Heavy duty ball bearing runners - 110% extension.

## DUOREST 2.0

Duorest ergonomics chair reduces back pressure by supporting the spine and back muscles.

## Duorest Details

**Smart Back System** - Backrest depth and height is easily adjusted using the control dial to reduce back pressure by supporting the spine and back muscles.

**Adjustable Armrest** - Armrests can be adjusted by angle or depth to ensure correct positioning.

**Urethane Castors** - Double layered 3mm Urethane castors reduces noise and protects against floor scratches.

**Curved Headrest Angle Adjustment** - Headrest can be adjusted by height and angle to provide optimum comfort.

**Self-Tilting Tension** - Tilting tension automatically measures the ideal tension for the individual user to maintain a comfortable sitting experience. The degree of tilting can be adjusted by operating the degree lever.

**Changeable Seatpan Cover** - Removable, washable seatpan cover to maintain the product in a pristine condition.

**Adjustable Seat Slide** - Adjust the depth of the seat to ensure correct seating position between seat cushion and knee.
