Standard Product Index	42-50

ILEX is a company staffed with engineers, artisans and craftsmen. Our in house team has the knowledge, skills and experience to take a commission through all stages of a project. All of our work in the United States is performed in our 72,000-square-foot facility in East Taunton, Massachusetts, where we design and create lighting products for hospitality, commercial, institutional, retail, and high-end residential use.

the **ILEX** story

At ILEX we take particular care to manufacture architectural lighting as beautiful as it is functional. It's lighting that works to enhance every interior where it's installed.

How do we do this? We are a company built around teams—engineers, designers, artisans, sales and customer service representatives. Working individually and collectively, our employees are driven by a single goal—to create and deliver lighting that performs at the highest level in the industry.

As a company, we are responsive and so we take responsibility for the quality of our products. The work we do here is influenced by our New England heritage—a tradition known for craftsmanship, ingenuity, and dependability.

In January 2016, ILEX acquired Custom Metalcraft. This acquisition followed our purchase of Davis Muller Lighting in 2012. These were strategic acquisitions that expanded our capabilities to provide the industry with a wider range of both standard and custom lighting.

The new ILEX brings together the strongest attributes of these fine companies to create a lighting resource of tremendous capabilities. With facilities in the U.S. as well as Asia, with our parent company, Norwell, we can meet virtually any demand for architectural lighting. Whatever you bring us, we can help conceive, develop, and produce products, large and small, and do it at the most competitive pricing.

To provide the highest level of service, we have also expanded our sales force and created a new website, ilexlight.com. As ILEX moves forward, we will continue to refine every aspect of our company from our manufacturing capability to our sales support.

We look forward to providing you with creative solutions to all your lighting needs.

Alan Indursky **PRESIDENT**

ILEX IS

HOSPITALITY, COMMERCIAL, CUSTOM and RESIDENTIAL lighting

FROM CONCEPT TO DELIVERY,
WE WILL REALIZE YOUR VISION

We are expert at manufacturing unique,
decorative products that provide effective
lighting. We've fabricated custom work and
popular products for an incredible range
of interiors, including hotels, casinos, retail
environments, corporate offices, and
educational facilities.

All ILEX products are UL -Listed.

WE DON'T KEEP REGULAR WORKING HOURS

BECAUSE YOU DON'T EITHER.

So we've created resources that you can access to get information about our products any time, anywhere

LED CFL IN ADA

Color-coded icons provide quick identification for lamp types and ADA compliance.

IES files and or Revit files on the most popular products can be downloaded.

Technical specifications can be enlarged, downloaded, or emailed.

- Every standard ILEX product includes a product page with complete technical specifications.
- *IES files and/or Revit files for the most popular products are accessible by downloading.
- Each luminaire offers an expanded view option with exact dimensions.
- Filtered search makes it easy to find specific product types, including ADA and LED.
- Find A Rep Tab quickly connects you with a salesperson by state, city or Zip Code.

Our website is fully functional on all devices—tablets and mobile phones as well as computers.

*If a specific product does not have photometry, contact ILEX with specifications, and we will provide it for you.

ILEX products are available 24/7 on any mobile device.

WE UNDERSTAND THAT LIGHTING DEFINES A SPACE.

We also understand that it must perform—and perform reliably. ILEX can realize your ideas, following your exact technical specifications, within your budget, while meeting your deadline.

OURS IS A SKILLED WORKFORCE.

Our in-house engineering department is at the center of everything we make. Our master craftsmen possess more than 50 years of manufacturing experience. They transform raw materials into beautiful, useful products that conform to the most exacting standards.

ABOVE: Genuine craftsmanship is inherent in every product we manufacture. Here, solid brass spins over a custom-made chuck on a lathe.

Precision welding

Product testing booth

WE MONITOR THE PROCESS AT EVERY STAGE.

Skills combined with proven processes and honed over three generations are present at each stage of our manufacturing process. Quality assurance is not an extra step, but is an integral part of everything we produce.

YOU HAVE A VISION. SHARE IT WITH US.

Once you decide to work with us, we'll set in motion our resources. We can transform the simplest sketch into a finished CAD drawing. Once drawn, your idea can be manufactured into a real and functioning product.

Simply tell us what you need and we will provide the guidance, hands-on work and trouble-shooting capability to deliver it.

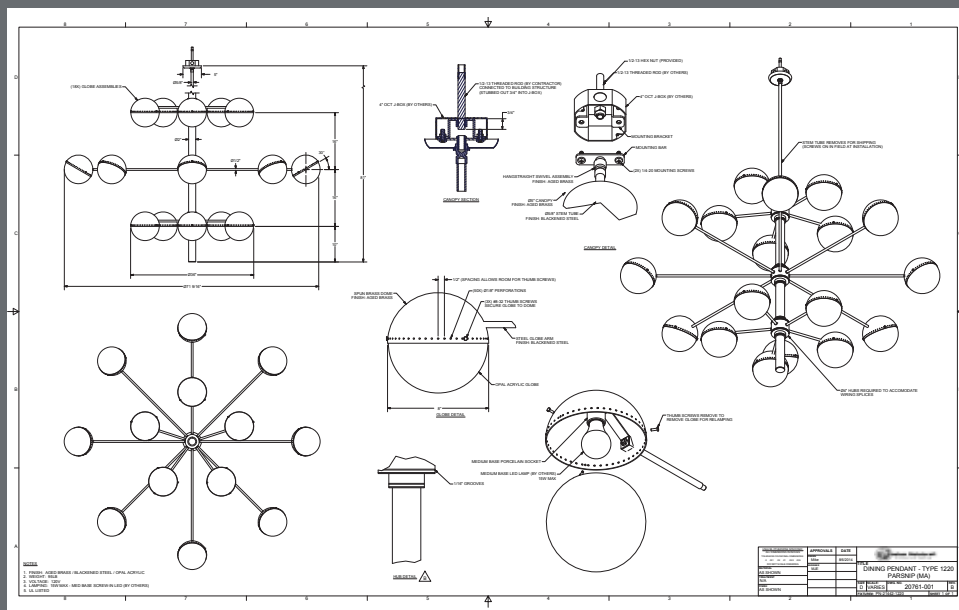

You can depend on us not merely to execute your idea but also to collaborate throughout the entire process.

Our in-house engineers can turn a sketch or an idea into a fully realized CAD drawing.

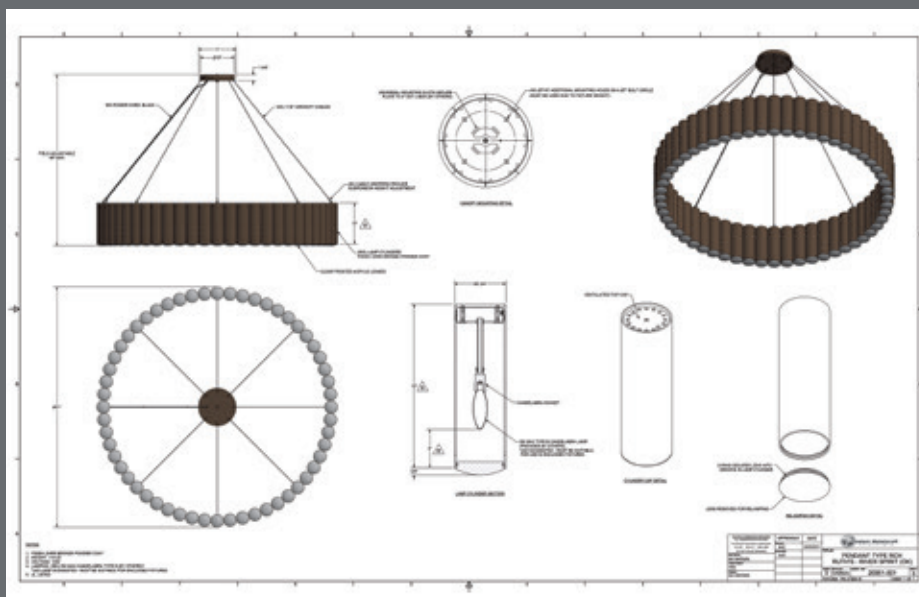

BRING US YOUR PROBLEM. WE'LL SOLVE IT

Problem solving is what we do.

Our role is not simply to make beautiful fixtures but to ensure our products help create the environment you envisioned.

Toward that end, we can assist you in recommending design details that improve the illumination of the fixture, while maintaining the integrity of the design.

YOU'RE CUSTOMER-FOCUSED. SO ARE WE.

Effective lighting is key to the success of any retail interior.

To create cost-effective lighting for multiple locations, we have an overseas facility staffed with bilingual ILEX employees. Our quality assurance teams make sure that what you specify is exactly what you get.

This resource allows us to quote complete fixture packages and deliver them at competitive pricing.

The fact that we don't simply contract out work but have ILEX employees on the ground, enables us to ensure both quality and cost controls. This unique arrangement has supported our national accounts for almost two decades.

STANDARD

There is nothing standard about the results you can expect from the ILEX Standard offering. It's developed by the same expertise, dedication, and understanding as our custom capabilities. Our Standard offering accommodates real-time projects and budgets with designs that can be modified with a number of finishes, diffusers and lamping options for custom results. What's more, Standard can often be delivered within a four- to eight-week production lead-time.

Most Standard products come with integrated LED; all are UL-Listed. Contact your sales rep for more information.

THE GHOST

Like an aura, The Ghost* makes its presence known even while it appears to be barely there. This series features the intriguing contrast of a sheer organza shade and exposed metal to define the simple, clean lines.

The Ghost pendant is available with exposed candelabra lamps or with a choice of Matte White or Shiny White glass diffusers. The pendant chandeliers are American-made in standard and custom sizes and finishes.

See the complete ILEX Standard offering at ilexlight.com.

THE HATBOX

Crisp and contained, our Hatbox Series puts a contemporary spin on timeless elegance. Four traditional shapes—oval, round, rectangular and square—assure the understated sophistication you seek, while a selection of sizes in pendants and flush mounts, as well as popular finishes, meet the demand for variety.

The diffuser is available in Shiny Opal Acrylic accompanied by a choice of six classic shade fabrics for further options to customize. Sconces are ADA compliant.

STANDARD DRUM

So simple yet so right, the ILEX Standard Drum is the go-to choice for many interior applications. We offer many options to achieve a custom effect, from a single or double profile in 24" to 48", to six fabrics to a half-dozen finishes. If you don't see what you want, we will assist you. In addition to custom colors and fabrics, we also have the capabilities to build drums as large as 84" in diameter.

STANDARD CITY SERIES

Inspired by the speed, glamour, and sophistication that define New York, the City Series offers the most popular attributes of our Standard offering to provide you with tremendous flexibility. This collection of sconces allows real customization within strict timetables and budgets. Each sconce comes in a range of finishes, fabric or acrylic diffusers and lamping options, including fluorescent, incandescent, and integrated LED. All sconces project 4" from the wall for ADA compliance.
